

SEARCH THE WOODS!

A VOCABARET SPECIAL by ADRIAN HOAD-REDDICK

Write a type of wood or tree in each set of blanks—from left to right, one letter per blank—to complete a longer word. For example, given the pattern ___ H O L __, you would insert 'PINE' in the blanks to spell 'PINHOLE'. If you can't think of a word with the pattern given, try dovetailing words in the blanks to see if one of them forms a word.
